BEATRICE WATER SYSTEM

NEW WATER RATE SCHEDULE

EFFECTIVE OCTOBER 2023

To: Beatrice Water System Customers

It has been ten years since there has been a water rate increase for Beatrice Water System. Using the current rate structure has become difficult to manage the water system needs; for materials, equipment, and to sustain the water system financially. Therefore, the Beatrice Water System must adjust the water rate.

NEW WATER RATE – OCTOBER 2023

Water Service Charge (Residential Billing) – \$26.50(Base)+\$1.06(4% Tax) = \$27.56 (Water Usage 0-2000 Gallons)

There is a 4% State Utility Tax charged on all water use below:

Water usage 3000-10,000 = \$3.50 per 1000 Gallons

Water usage 11,000 to infinity = \$4.00 per 1000 Gallons

Commercial Rates will increase 10% across the board.

Example: Customer uses 5000 Gallons of Water:

Residential Billing Base \$26.50 (2000 gallons)

Residential Billing Use \$10.50 (3000 gallons @ \$3.50 per 1000 gallons)

Utility Tax Rate 4% \$1.48

Total Bill \$38.48

Make Check or Money Order Payable to **Beatrice Water System**.

All Bills are Due on the 15th of Each Month. Late fees remain \$5.00

If you have any Questions, please call 251-369-0328 or 251-369-0332

Thank You,

Beatrice Water System
